## Nicaragua . . .

*I am thankful I discovered your web site and your willingness to send me a copy of your book. My wife and I are studying it. We have learned more (about Grace) than in our 22 years of being Christians!*

*We appreciate the simple review with each chapter. We have felt compelled to let you know our appreciation.*

*I read one of your excellent documents on your web site. My home church here in **Guatemala** also teaches sound doctrine for which I'm grateful. I hope one day we can meet.*

*I am the pastor of a Vietnamese Presbyterian Church. My church is very young, so I need material for studying in my church. When I read your Articles & Essays, I think they are very good for my church members to study, also for other churches. I would like to ask you can I translate them into Vietnamese? I also need your prayers for my ministry in **Vietnam**.*

**Phil 1:4,5**-"...I always pray with joy because of your partnership in the gospel from the first day until now..."

I am from **Uruguay**. It is the least evangelized nation in South America. False doctrines float through, affecting some of our poorly trained pastors. I have a burden to open a training institute and would like further contact with you.
