

As the world shrinks...

Imagine New Testament ministry with access to today's technology.

Paul turns on his laptop and hits a key. Up comes Titus in Crete, as though in the very same room. Titus starts sharing with Paul some of the frustrations of the fledgling church in Crete. Paul asks Titus to hold a minute. He notices that Timothy is on line.

Timothy has let self doubt seep in. Paul takes a moment to remind him of the promise God gave when Timothy was set apart for the ministry. This is Friday morning and the apostles and disciples know Paul uses this time to mentor through SKYPE!

We are not Paul.

But SKYPE isn't fiction. This internet connection allows us to converse for free with our leadership centers in Chili, Colombia, Mexico, Brazil and Costa Rica.

We have 12 reformation training centers throughout Latin America. The national directors often discuss issues with us by SKYPE.

An accountant in Chile is planting a church, using our materials to train his people in Christian living. We are mentoring him through our Personal Revival course.

Recently a pastor in Costa Rica contacted us and has started two training centers in his country.

Today we are editing the first few chapters of our next book. **Please continue to pray for wisdom, creativity in our ministry.**

**Joyfully Serving,
Roger & Dianne Smalling**
