Editing is like surgery. It takes teamwork.

Our books and manuals can reach the most rural settings due to folks who have translated our resources into Spanish and Portuguese.

Here is Aristides teaching *Christian Leadership* in a remote area of Brasil. He has translated our books into Portuguese. And we've never met him!

We love when God gives us a creative idea to expand and ease our ministry. Just such an idea came recently: **FLASHDRIVES**

We put our entire website in Spanish, English and Portuguese onto these little devices and took them on our trip to Mexico. The believers snapped them up and we soon ran out. Not to worry. . . one of the leaders purchased local flashdrives and was able to burn enough for the rest of the students. Imagine the ease of taking these instead of heavy books to Latin America!

We are so grateful for you
